- Port Power

The power sum for each pin's group should not exceed 100mA

7-12V Depending on current drawn

Absolute MAX per pin 40mA recommended 20mA

Absolute MAX 200mA for entire package

IOREF provides a logic reference voltage for shields that use it. It is connected to the 5V bus.

The input voltage to the board when it is running from external power. Not USB bus power.
